

## SAGUARO NTS NET SCRIPT (03/09/2020)

Calling the Saguaro NTS Traffic Net, Calling the Saguaro NTS Traffic Net. This is <NAME & CALL SIGN>, I am your **NET CONTROL** station for **Day, Date** (example: **Sunday, 03/08/2020**).

This is a Local Net, and meets nightly at 6:30 PM Mountain Standard Time on the Eastern Arizona Amateur Radio Society network. Our purpose is to train and pass radiogram messages into and out of our coverage area in order to be ready in case of an emergency. All stations checking into this net should be willing to handle traffic.

We are affiliated with the Arizona Traffic and Emergency Net (ATEN), a high-frequency voice, section net, that meets nightly at 5:30 P.M. (MST) on 3986 kHz.

This is a directed net. Please pass all communications through net control. Unless you have an emergency or are checking back into the net with your suffix, please do not transmit unless directed by net control.

IF YOU NEED TO LEAVE THE NET EARLY, PLEASE COORIDNATE WITH THE NET CONTROL STATION TO ENSURE WE HAVE COVERAGE FOR TRAFFIC INTO YOUR AREA.

- Is there any PRIORITY traffic?
- Are there any announcements for the net?
- Is there any Outbound / Out of State traffic?
- Is there any Local Arizona Traffic?

Visitors and late members can check in after roll call.

This is <YOUR CALL SIGN> for the Saguaro NTS Traffic Net. Please standby for Roll Call. <Use the **ROLL CALL List** located on the **Saguaro NTS Website**>

Do we have any additional stations that would like to check in with or without traffic, Your call sign please?

*<Assign traffic at this point. Assign "Out of State" traffic to any station with ATEN Access. If there is A LOT of traffic, please utilize other frequencies like 146.88 or Simplex.>*

CLOSING:

Last Call for late, missed or interested listeners wishing to learn more about the National Traffic System, your call sign please?

Are there any questions, comments or other business for the net before I close tonight's session?

I would like to thank all those who checked in, especially those who handled traffic. Many thanks to the Eastern Arizona Amateur Radio Society for the use of their repeaters. We invite you to join us each night to participate, and learn more about traffic handling. For more information, see our website SAGUARONTS.NET (I SPELL) or contact **Max, KI7TIG** for additional information.

This is <YOUR NAME / CALL SIGN> closing this session of the Saguaro NTS Net at \_\_\_\_\_ MST and freeing the repeaters back to general use. <YOUR CALL SIGN> is clear.

**MAX PRESNELL    BYRON MCCABE**  
**KI7TIG            AA7BM**
